DATE: January 18, 2000

SUBJECT: Bifurcated Checklist Elements
Second Workshop on January 25, 2000

As announced at the last workshop on January 11, 2000, the second workshop addressing the bifurcated checklist elements set forth in the Commission's December 8, 1999 procedural order will be held on January 25, 2000. Due to the lack of available space at the Commission's Offices on that date, the workshop will be held at U S WEST's Offices located at 5090 40th Street, Phoenix, Arizona. The workshop will begin at 9:00 a.m. and will conclude at 4:30 p.m. The agenda will include any resolution reached with respect to Checklist Items 8 and 9. The new checklist items to be addressed will include Checklist Items 7 and 10. Checklist Item 7 relates to nondiscriminatory access to: (a) 911 and E911 services, (b) directory assistance services to allow the other carrier's customers to obtain telephone numbers, and (c) operator call completion services. Checklist Item 10 relates to nondiscriminatory access to databases and associated signaling necessary for call routing and completion.

Parties shall have an opportunity to file additional written comment on these checklist items prior to the workshop. As discussed at the first workshop, initial comments by all parties will be due January 19, 2000. Reply comments will be due January 21, 2000. Parties should also submit any documents or exhibits which they intend to rely upon in support of their position. Parties should be prepared to present their positions on all of the above-referenced checklist elements at the workshop. Staff will distribute an agenda for the second workshop later this week. Staff will also have a conference bridge put in place so that people unable to attend in person can participate telephonically.

If you have any questions regarding this matter, please do not hesitate to contact either myself at (602) 542-0748 or Maureen Scott at (602) 542-6022. Thank you.
